

The trusted network behind what India manufactures.

XELOR helps small and mid-sized factories find suppliers they can trust, using records earned on every real delivery.

THE PROBLEM

Suppliers found by luck

WhatsApp, phone calls, references and long site visits.

Directories cost too much

A paid listing is ₹32,000+ a year. Most MSMEs can't afford it.

No proof of who delivers

So factories take risks, or pay more to play safe.

THE XELOR SUPPLIER NETWORK

OUR CORE

Every delivery becomes a verified record.

01

A factory orders

Parts from a supplier, through XELOR.

02

Supplier delivers

Goods arrive at the factory gate.

03

Checked at the gate

On time? Right quantity? Passed quality?

04 · RECORD EARNED

Sri Ganesh Castings

96% on time 0.3% rejected 19 deliveries

05

Found & chosen

Good suppliers win more work from more factories.

The network grows with every order. Each request invites a new supplier. It joins free, then brings its own buyers.

More orders

More records

More trust

HOW A FACTORY BUYS ON XELOR

1 Ask

AI writes the request for quotes. Suppliers reply from a link, no login.

2 Compare

Quotes ranked on price, delivery date and each supplier's record.

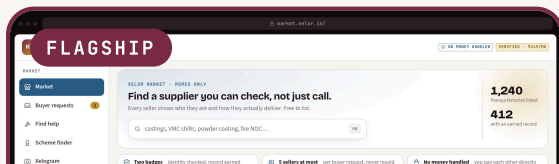

3 Decide

A person picks the supplier. The owner approves from the phone.

4 Record

The delivery is checked at the gate and the record updates itself.

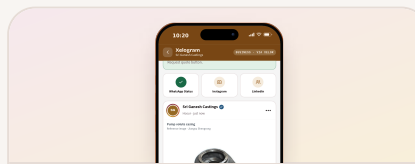

THREE PRODUCTS, ONE TRUSTED RECORD

FIND & CONNECT

XELOR Market

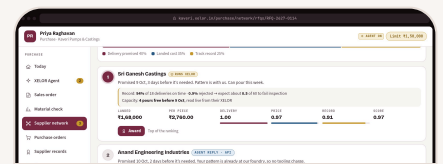

Find suppliers, buyers and local help. Every seller shows its earned record, not just a phone number.

GET FOUND

Xelogram

A verified delivery becomes a post buyers can request a quote from.

THE ENGINE

Agent AI ERP

Runs daily factory work and writes every record by itself. Works alongside Tally.

WHY XELOR IS DIFFERENT

Proof, not reviews

Records come from real deliveries, so they can't be faked.

We only connect

XELOR never touches the money and never resells leads.

Affordable for every MSME

Free to start. Listing from ₹249 a month.
