

The trusted supplier network for Indian MSMEs.

Every delivery becomes a verified record. Factories use those records to find, trust and trade with each other.

THE PROBLEM

Small factories still find suppliers on WhatsApp and phone calls. **Nobody can see who actually delivers on time**, and paid directories only check identity.

HOW THE SUPPLIER NETWORK WORKS

01 • ASK

Send a request

Suppliers quote from a link.
No login, no app.

02 • COMPARE

See the proof

Quotes ranked on price,
delivery and track record.

03 • DECIDE

Pick and approve

A person chooses. The
owner signs on the phone.

04 • RECORD

Proof is earned

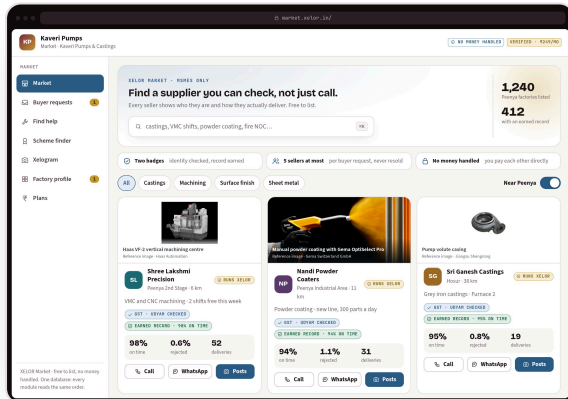

On-time and quality results
update the record.

Every request invites a new supplier. It joins **free**, claims its record and brings its other buyers, so **the network grows with every order**.

FLAGSHIP

XELOR Market

Find a supplier. See the proof first.

- ✓ Every seller shows an **earned record**: on-time %, rejects, deliveries.
- ✓ A buyer's request goes to **5 sellers at most**, never resold.
- ✓ **Find help**: verified repair, testing, compliance and finance providers.
- ✓ Buyers and sellers pay each other. **XELOR never touches the money**.

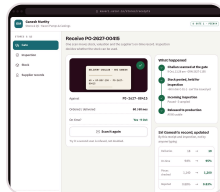

₹32,000+ / year

THE ENGINE

Agentic AI ERP

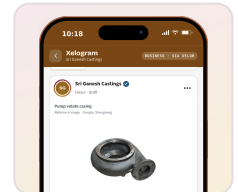

Runs the factory's daily work and writes every supplier record automatically. People approve; it works beside Tally.
