WOLM

Market, gap & 45-day launch plan

A simple guide to where WOLM stands in the market, the gap it fills, and exactly how we will launch it on social media and ads in 45 days.

PREPARED FOR
The WOLM founding team

PREPARED BY
Vortex Media Management

THE WHOLE PLAN ON ONE PAGE

Four things to know before you read on

If you only read one slide, read this one. Each card below is explained in detail on the slides that follow.

1 · THE MARKET

Plenty of tools, each does one piece

Note-takers, research tools, sales trackers: teams pay for several and still do the hard work by hand.

2 · THE GAP

Nobody handles the work after the meeting

WOLM does the whole job: prepares you, takes notes, splits tasks, drafts the follow-up email and updates the sales records.

Brief → Meeting → Tasks → Email → CRM

3 · THE PLAN

Four channels, four story series

The founder on LinkedIn, short videos on Instagram and YouTube Shorts, longer proof videos on YouTube, and ads that bring in demo bookings.

- LinkedIn
- Instagram
- YouTube
- Ads

4 · THE LAUNCH

45 days, live on day 31

30 days to plan, shoot and prepare. Launch on day 31, then two weeks of push. Three packages to choose from.

from **₹1,42,500** + GST

An AI assistant that does the sales admin for you

Sales people spend hours after every customer meeting writing notes, sending emails and updating records. **WOLM does that part automatically**, before, during and after each meeting.

BEFORE

You walk in prepared

WOLM builds a one-page brief on the customer.

- Company news and positioning
- Risk and deal-stage scores
  How likely the deal is, and where it stands

DURING

It listens, any way you like

Three ways to capture the conversation:

- A bot joins the video call
- A Chrome browser extension
- A photo of your notebook or a voice note
  For in-person meetings, or when the client says no to bots

AFTER

The work gets done

Minutes after the meeting ends:

- Tasks for each team member
  Everyone knows what to do next
- Follow-up email drafted
  Ready to send in Gmail or Outlook
- Sales records updated
  Two-way sync with Salesforce

IN ONE SENTENCE

The AI sales assistant that turns every customer conversation into work that gets done.

WHO IT'S FOR

- **Small B2B sales teams**
  Businesses that sell to other businesses
- **Field sales reps**
  People who meet customers on-site, not at a desk

? **CRM** (e.g. Salesforce) is the system where a sales team keeps its customer list and tracks every deal. Keeping it up to date is the chore most reps put off.

02 · COMPETITOR SCAN

No product covers the full job for small teams

We compared 7 popular tools against the 7 jobs a sales team needs done. Most cover two or three. **WOLM is built to cover all of them.**

PRODUCT · WHAT IT COSTS	MEETING NOTES & TASKS	RESEARCH BEFORE MEETINGS	UPDATES SALES RECORDS (CRM)	WRITES THE FOLLOW-UP EMAIL	LIVE HELP DURING CALLS*	FIELD VISIT CHECK-IN	PRICED FOR SMALL TEAMS	HOW MUCH OF THE JOB

03 · THE GAP WOLM FILLS

Today a deal passes through five tools. WOLM makes it one.

Every time work moves from one tool to the next, someone has to retype it, and details get lost.

TODAY
5 tools, 5 logins

- **Research tabs** — News, filings, LinkedIn
- **AI note-taker** — Transcript + summary
- **To-do list** — Retyped by hand
- **Inbox** — Follow-up written from scratch
- **CRM** — Updated "later"

Context is lost at every hand-off: nothing carries over

WITH WOLM
One flow, start to finish

- **Account brief** — Positioning, news, risk & stage scores
- **In the room** — Bot, Chrome extension, photo or voice note
- **Tasks per person** — Assigned to each team member
- **Follow-up drafted** — Ready in Gmail / Outlook
- **Pipeline synced** — Two-way Salesforce sync

HOW WE'LL DESCRIBE WOLM

The AI sales assistant that turns every customer conversation into work that gets done.

CAMPAIGN LINE

You work the room.
Wolm works everything else.

Each gap in the market becomes a content series

Instead of saying "we're better", every series shows a real frustration and then how WOLM fixes it.

From a stranger scrolling to a booked demo

Each channel has one job. Together they take a sales leader from "never heard of WOLM" to "let's talk".

STEP 1

Get noticed

Instagram Reels + YouTube Shorts

Short, funny, relatable videos (20–45 seconds) about the pain of sales admin. Four recognisable series.

EVERY WEEK
4 Reels + 3 Story sets
Reels also posted as YouTube Shorts

STEP 2

Build trust

LinkedIn

The founder becomes the face of WOLM, sharing honest opinions and stories where sales leaders already spend time.

EVERY WEEK
3 founder + 2 company posts
Plus 15 minutes of commenting a day

STEP 3

Prove it works

YouTube long videos

Buyers check YouTube before they buy. Full demos and walkthroughs show WOLM doing real work.

AT LAUNCH
8–12 min demo teardown
Then founder talks and walkthroughs by role

STEP 4

Book a demo

Ads

Paid ads find the right people, collect their details with simple sign-up forms, and remind interested people to book.

A TYPICAL WEEK

Mon	Tue	Wed	Thu	Fri
Founder post	Company page	Founder post	Company page	Founder post

Every day: 15 minutes commenting on posts by US sales leaders, to get seen by the right people

WHAT WE'LL POST ABOUT

HOW WE'LL DO IT

- Vortex writes the founder's posts from two recorded conversations during the 45 days
- LinkedIn Live demo on launch day
- The whole team reshares every founder post

HOW WE'LL KNOW IT'S WORKING

Engagement from sales titles
Likes and comments from sales leaders, not random accounts

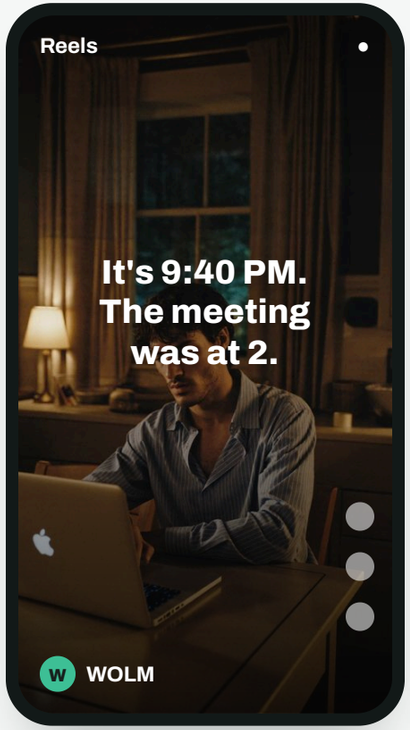

Ideal-customer followers
New followers who match WOLM's target buyer

Profile visits & inbound messages
People curious enough to look or reach out

Mock-up: post copy is a draft hook · Name and photo replaced with a placeholder

Four short-video series, recognisable in two seconds

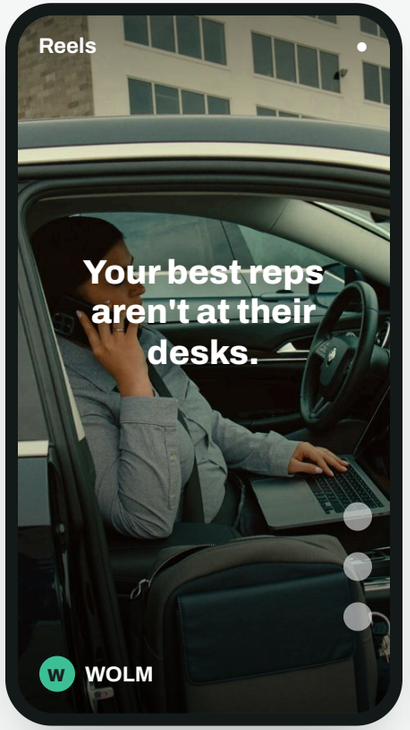

Each series has its own look and opening line, so viewers know it's WOLM before the logo appears.

SERIES 4

Left On Read

Why deals go quiet, and how not to let them

THREE RULES FOR EVERY VIDEO

- **Hook in 2 seconds** — Grab attention before the thumb scrolls on
- **Captions on screen** — Most people watch with the sound off
- **20–45 seconds long** — Short enough to finish

HOW OFTEN

4 Reels a week, also posted as YouTube Shorts

3× Stories a week, with polls

HOW WE'LL KNOW IT'S WORKING

Frames are casting and mood references for the launch shoot, not final footage

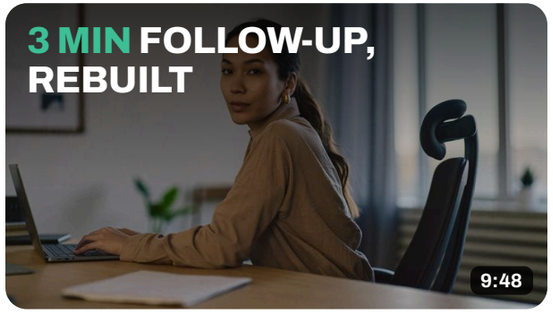

YouTube is where buyers go to check

Before a company buys software, someone searches for it on YouTube. These longer videos are the proof that WOLM really works.

09 · PAID ADS (PERFORMANCE MARKETING)

Ads in three steps: find, capture, convert

Ads start on launch day. They find the right people, collect their details, then remind the interested ones to book a demo.

STEP 1 · FIND

Reach the right sales leaders

Pay to show our best content to people with sales job titles.

- Boost the founder's best LinkedIn posts
- LinkedIn video ads
- Instagram / Facebook Reels ads
- YouTube ads before other videos

Sponsored
Off the desk
Book a demo

STEP 2 · CAPTURE

Collect their details

A sign-up form opens inside LinkedIn or Instagram, already filled in. Nothing to build; leads go straight to WOLM.

- LinkedIn form: "Run a Stack Swap check"
- Meta (Instagram / Facebook) form

WOLM · Sponsored

Submit

STEP 3 · CONVERT

Turn interest into demos

Remind people who already engaged, and appear when buyers search on Google.

- Reminder ads with Said / Done clips
- Google searches like "AI sales assistant", "AI note-taker with CRM", "Gong alternative"

Said. Done.

HOW THE AD BUDGET IS SPLIT AT THE START

LinkedIn	50%
Google Search	30%
Meta (Instagram, Facebook)	20%

Reviewed after 2 weeks of results, then moved toward what works best.

? **Lead**: someone who has shared their details and shown interest in WOLM.

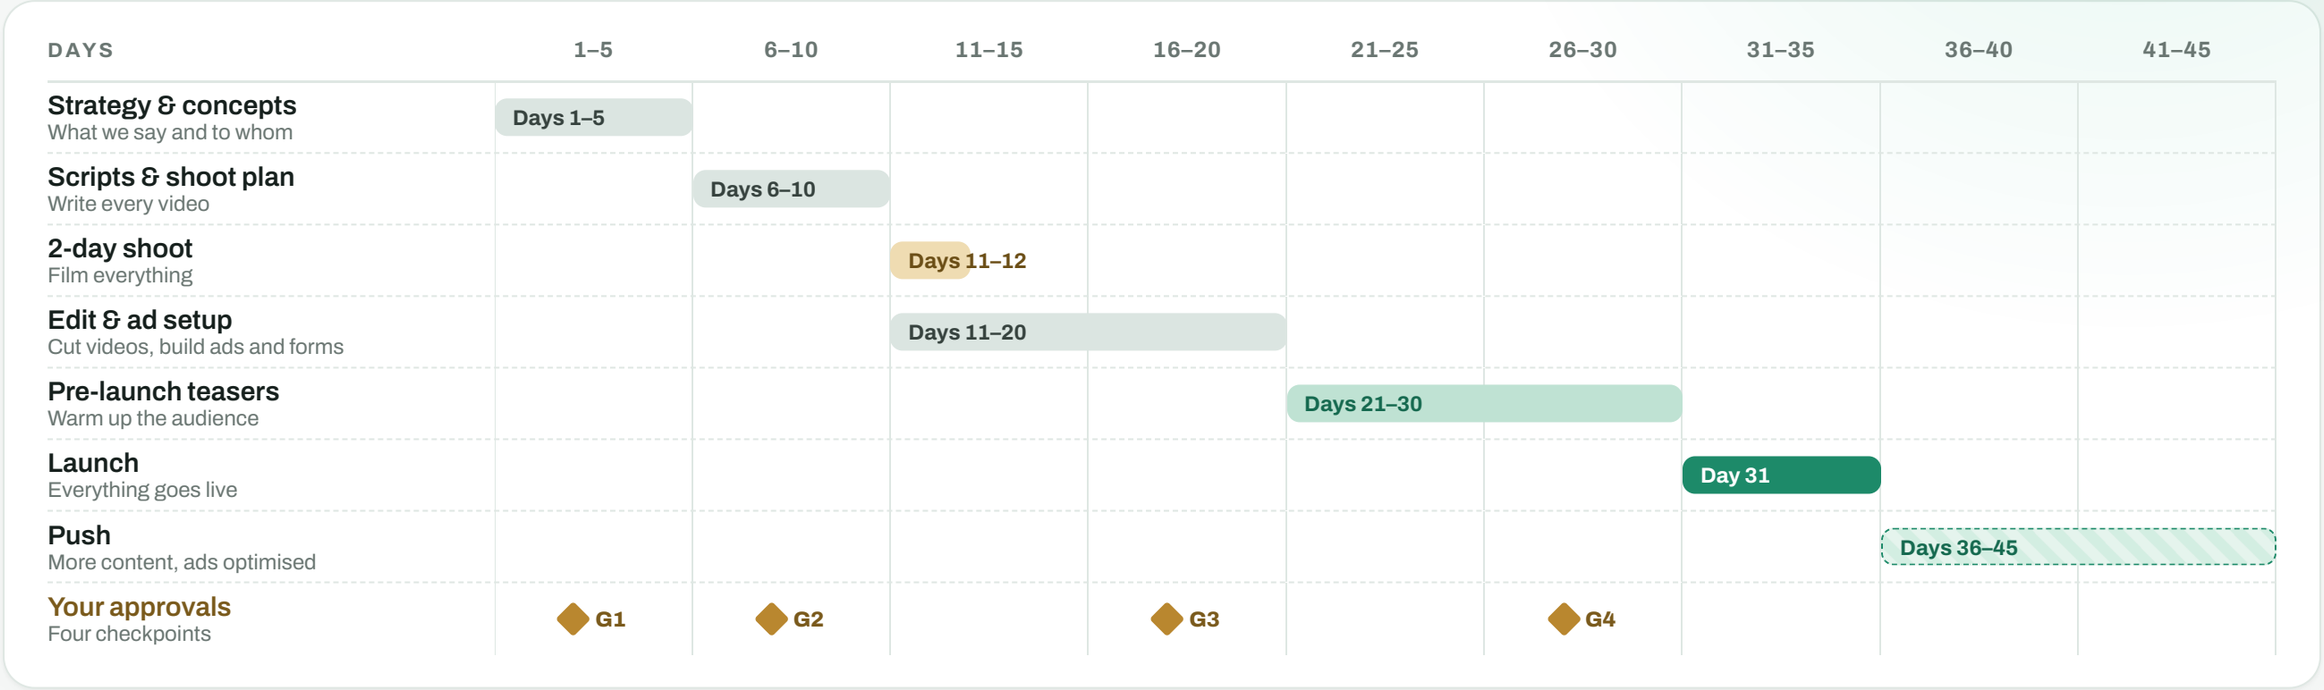

? **Retargeting**: showing ads again to people who already watched or clicked.

? **Ad spend** is paid directly by WOLM to each platform, separate from Vortex's fee.
